**1 — Plant fire in Duson area forces evacuations; I-10 re-opens, Baton Rouge Advocate, 5/4/18**

[http://www.theadvocate.com/acadiana/news/article\\_aebd58d8-4f1a-11e8-a909-cf7d23629a29.html](http://www.theadvocate.com/acadiana/news/article_aebd58d8-4f1a-11e8-a909-cf7d23629a29.html)

Explosions caused a massive fireball about 4 p.m. Thursday at the FlowChem Technologies plant, leading to the closure of a long swath of Interstate 10 and the evacuation of businesses and homes at one point within a five-mile radius of the specialty oilfield chemical provider.

**2 — Xylene contributed to Duson explosion, KATC, 5/4/18**

<https://www.chron.com/news/texas/article/Texas-officials-ignore-dioxin-spread-in-Houston-12884105.php>

Officials with the Acadia Parish Office of Homeland Security and Emergency Preparedness tell us that fire started after xylene and flammable containers exploded. Crews will be out overnight as they wait to vacuum up the xylene and the other hazardous chemicals at the site.

**3 — Texas officials ignore dioxin spread in Houston waterways, Houston Chronicle, 5/3/18**

<https://www.chron.com/news/texas/article/Texas-officials-ignore-dioxin-spread-in-Houston-12884105.php>

An agreement announced last month has cleared the way for the San Jacinto Waste Pits to finally be cleaned up. But dioxin damage already has spread far beyond the waste pits, the Houston Chronicle and The Associated Press found.

**4 — Meeting standards, Tahlequah (OK) Daily Press, 5/4/18**

[http://www.tahlequahdailypress.com/news/local\\_news/meeting-standards/article\\_1d0c78ec-ed9f-52a7-813b-e387a03fe70e.html](http://www.tahlequahdailypress.com/news/local_news/meeting-standards/article_1d0c78ec-ed9f-52a7-813b-e387a03fe70e.html)

IN 2003, Oklahoma adopted a standard for the amount of phosphorus permitted in the state's natural water resources - intended to avoid polluting the water with excess nutrients and allowing nuisance algae to grow and degrade the scenic value of rivers and lakes.

**5 — How Scott Pruitt Helped Poultry Giants Pollute One of Oklahoma's Prettiest Rivers, The Intercept, 5/4/18**

<https://theintercept.com/2018/05/04/epa-scott-pruitt-oklahoma-illinois-river/>

Now it's become clear that under Scott Pruitt's leadership, the EPA has taken actions that could further undermine Oklahoma's longstanding efforts to clean up water pollution in the Illinois River.

**6 — Missing boot: Satellite image shows eroding Louisiana coastline, New Orleans Times-Picayune, 5/3/18**

[http://www.nola.com/environment/index.ssf/2018/05/satellite shows greening south 1.html#incart most shared-environment](http://www.nola.com/environment/index.ssf/2018/05/satellite%20shows%20greening%20south%201.html#incart=most%20shared%20environment)

A NASA satellite image of the southern half of the United States taken Monday (April 30) shows that spring has sprung across the nation's eastern forests. But when you clip out and blow up the part of the image that includes southeastern Louisiana, the loss of sediment-rich water from the still-high Mississippi and Atchafalaya rivers also is very evident.

**7 — Automakers tout green credentials but fight climate rules, E&E News, 5/4/18**

<https://www.eenews.net/climatewire/stories/1060080827>

As he announced that he would roll back a signature Obama administration climate initiative last month, EPA Administrator Scott Pruitt stopped to smile and pose for a photo with some of the guests.

**8 — OPINION: The importance of protecting our water, Liberty (TX) Vindicator, 5/3/18**

[http://www.thevindicator.com/opinion/article\\_bdb76d7c-4f0d-11e8-b9c4-cb5550010dce.html](http://www.thevindicator.com/opinion/article_bdb76d7c-4f0d-11e8-b9c4-cb5550010dce.html)

We're fortunate to live in a country that has access to readily clean and safe water. Improvements in our water quality have had a positive impact on the health, prosperity and longevity of the United States population over the past century.

**9 — Legislative committee shoots down non-native caviar farming over fears of invasive species, Baton Rouge Advocate, 5/3/18**

[http://www.theadvocate.com/baton\\_rouge/news/environment/article\\_f8ea33e2-4f18-11e8-8422-7f38844040f6.html](http://www.theadvocate.com/baton_rouge/news/environment/article_f8ea33e2-4f18-11e8-8422-7f38844040f6.html)

Russian fish won't be making caviar in Louisiana after all. This week, the Louisiana House's Natural Resources Committee voted down the farming of non-native sterlet sturgeon.

**10 — Marathon Oil confirms it's latest major company exploring Louisiana's Austin Chalk, Baton Rouge Advocate, 5/3/18**

[http://www.theadvocate.com/baton\\_rouge/news/business/article\\_0f7eb3f0-4ed1-11e8-a878-9766fbc8c4bc.html](http://www.theadvocate.com/baton_rouge/news/business/article_0f7eb3f0-4ed1-11e8-a878-9766fbc8c4bc.html)

Houston-based Marathon Oil has confirmed it has a position in Louisiana's Austin Chalk play, making it one of several large industry players exploring the formation.
